

Prehistoric Creatures

Students learn important things about Dinosaurs
Level - Grade 2

Originated by Joan Glodowski
Hackett Elementary, Beloit, WI

Since this was a second grade project, we used simple, easy to read books on dinosaurs. I have many books about dinosaurs in my classroom available for their use, and I also handed out pre-typed information about different dinosaurs. They can either cut and paste this information into their books, or hand write it. Students had to have two facts about each of the various kinds of dinosaurs, fossils, and time periods. They also had to have pictures for each page.

Page Layout:

1	Title Page
2	Dedication Page
3	Table of Contents
4	Illustration of Environment
5	Important things about the environment
6	Illustration of Fossils
7	Important thing about fossils
8	Illustration of Time Periods (What three time periods did Dinosaurs live in?)
9	The different time periods in which Dinosaurs lived and the important things about these time periods
10-11	Illustration of Meat-eating Dinosaurs
12-13	Important things about the meat-eaters
14-15	Illustration of Plant-eaters
16-17	Important things about the plant-eaters
18-19	Illustration of Flying Reptiles
20-21	Important things about the flying reptiles
22-23	Illustration of Sea Creatures
24-25	Important things about the sea creatures
26	Illustration of After the Dinosaur
27	Important things about the time right after the Dinosaurs lived
28	Other facts about Dinosaurs
